

Instructions

1. Click on the blue Download Link 1 which is a 100MB bin file, or Download Link 2 which is a 1000MB bin file.
2. There is nothing you need to do with these files post download. They can simply be deleted.
3. Time how long each download takes and use that as a benchmark for the best location to host your VPS.

Location	Hostname	Download Link 1	Download Link 2
(EU) Paris, France	par-fr-ping.vultr.com	100Mb	1000Mb
